

Anıl Sezer

Senior Backend & Platform Engineer

7+ years in backend engineering · 4 years with Kubernetes

SKILLS

Backend: C# / .NET 10, PHP, Go, gRPC, Kafka, PostgreSQL, MySQL, MS SQL, Elasticsearch, Node.js, C/C++
Frontend: Flutter (Android & iOS), TypeScript, React
Platform: Kubernetes, Docker, Ansible, Helm, Prometheus, Grafana, OpenTelemetry, Jaeger, Traefik
Practices: DDD, TDD, Event Bus, CI/CD, Microservices, Modular Monolith, Monolith

EXPERIENCE

DOLAPJET (Smart Locker & Delivery) | **Senior Backend & Platform Engineer** Oct 2025 – Present
Docker, .NET 10, Flutter, PHP, IoT Kiosks, TDD, Event Bus, PostgreSQL, MySQL

- Redesigned the company's software architecture and infrastructure across 7 code repositories.
- Integrated the backend, smart-locker kiosks, and Flutter applications into a unified system.
- Architected the Linux server and Docker container infrastructure.
- Led hiring and mentoring of the team.

FREELANCE | **DevOps & Backend Software Consultant** May 2024 – Oct 2025
Docker, Kubernetes, Ansible, Prometheus, Grafana, Traefik, Authentik

- Architected and deployed hardened, production-ready Docker environments that have 60+ containers, mostly on bare-metal servers with reverse-proxy routing and disaster recovery.

MOKA UNITED (Fintech) | **Backend Software Engineer** Aug 2023 – May 2024
.NET 3.1 & .NET 8, MS SQL, PostgreSQL, Kubernetes

- Developed mission-critical payment software under tight delivery deadlines.
- Developed a new microservices solution for cross-border payments between the United Kingdom and Turkey.
- Bridged the .NET and DevOps teams during the migration to Kubernetes.

PANJUR BILISIM (Social media platform) | **Backend Software Developer** May 2019 – Aug 2023
PHP 7, .NET 6, Blazor, Kubernetes, AWS, Docker, Apache Kafka, MySQL, TDD, DDD, Event Bus

- Ensured uninterrupted 99.9%+ availability for 3 commercial brands running from the same codebase.
- Maintained and modernized a complex 12-year legacy codebase.
- Integrated modern technologies like Apache Kafka and .NET 6. Received extensive Kubernetes training.

PORTFOLIO

Kubernetes, Ansible, .NET 10, PostgreSQL, Go, gRPC, OTel, Prometheus, Grafana, Elasticsearch, Microservice

- Built and operate a six-node bare-metal Kubernetes cluster running 64+ pods and hosting anilsezer.net
- Used Ansible to set it up, deployment is smooth. Playbook can be found in my public GitHub repo.

EDUCATION AND LANGUAGES

ISTANBUL UNIVERSITY (With honors) | **Business Administration and Management** Sep 2013 – Jun 2018
DR. NURETTIN ERK HIGH SCHOOL | **Web Design and Programming** Sep 2007 – Jun 2011
ENGLISH AND TURKISH | **Full professional fluency**
